

Primary Multi-Site

1 Program Coordinator (PC)

Each DSME program has a primary multi-site. And only one PC Other sites can be added to the primary multi-site as multi-sites or expansion sites.

Additional Multi-Site

Additional Expansion Site

Expansion sites can extend from any of the programs multi sites.

Expansion sites are additional locations that offer the same program as the parent site they are expanding from. Hospital owned DSME programs can only expand to other hospital locations.

Expansion Site

Expansion Site

Multi-Sites are additional locations that are able to operate semi-independently from the primary site.

Programs can have an unlimited number of multi-sites and expansion sites.

Expansions Site VS Multi-Site

Each DSME program has a primary multi-site. Other sites can be added to the primary multi-site as multi-sites or expansion sites.

Expansion sites can extend from any of the programs multi sites. See table below for details and FAQs.

It is crucial to review the addition of program sites with your hospital or practice compliance office prior to submitting an application.
