BEHAVIORAL OUTCOMES

% ¹	Outcome Selected	# ²	Behavior Outcome	# ³	Change within reporting period	% ⁴
75%		12	Nutritional Management	10		65%
75%		4	Physical Activity / Being Active	2		75%
50%		1	Taking medications	1		25%
100%		1	Monitoring	1		100%
75%		1	Acute complications / Problem Solving	1		75%
75%		1	Chronic complication / Reducing Risks	1		50%
			Psychosocial Adjustment / Healthy Coping			

¹ The average Assessed Objective Achievement of the most recent Behavioral Outcome update.

² Number of participants having the Behavior Outcome.

³ The number of participants that have multiple updates to a Behavioral Outcome with at least one update falling within the reporting period.

⁴ The average change in the Assessed Objective Achievement.

PROGRAM OUTCOMES

Outcomes Documented During Reporting Period ¹				Outcome Change ²			
Outcome	Average ³	# Documented ⁴	%	# Change ⁵	Avg Pre ⁶	Avg Post ⁷	Change Amount ⁸
A1c	AVERAGE 7.0	12 	54.5%	# CHANGE 12	AVG PRE 8.6	AVG POST 7.0	AMOUNT -1.6
Weight	AVERAGE 273.5	2 	9.1%	# CHANGE 2	AVG PRE 287.0	AVG POST 273.5	AMOUNT -13.5
BP systolic	AVERAGE 100.0	2 	9.1%	# CHANGE 2	AVG PRE 105.0	AVG POST 100.0	AMOUNT -5.0
BP diastolic	AVERAGE 105.0	2 	9.1%	# CHANGE 2	AVG PRE 110.0	AVG POST 105.0	AMOUNT -5.0
Total Cholesterol	AVERAGE 0	0	0%	# CHANGE 0			
HDL	AVERAGE 0	0	0%	# CHANGE 0			
LDL	AVERAGE 0	0	0%	# CHANGE 0			
Trigs	AVERAGE 0	0	0%	# CHANGE 0			

¹ Outcome with average result during reporting period, number of participants and percentage of participants with program outcome documented during reporting period.

² Number of participants with measurable program outcome change, average pre & post values, and numeric & percent change in value.

³ Average value of the outcome documented during the reporting period.

⁴ The number of participants that had outcome documented during reporting period and the percentage of total participants that had the outcome documented during the reporting period.

⁵ The number of participants that had a measurable outcome change

⁶ The average initial value for the outcome

⁷ The average current value for the outcome

⁸ The average numeric change of the outcome

PARTICIPANT MEASURES

Outcome	# Tot. ¹	% Tot. ²
Participants with A1cs	12	54.5%
Participants with 2+ A1cs	8	36.4%
Participants with A1cs above 9.0	1	4.5%
Participants with A1cs below 9.0	8	36.4%
Participants with BMI	2	9.1%
Participants with Foot Exam	2	9.1%
Participants with Eye Exam	2	9.1%
BP Systolic <= 130	2	9.1%
BP Diastolic <= 80	1	4.5%
BP Systolic <= 130, Diastolic <= 80	1	4.5%

¹ Total # of participants with outcome recorded during reporting period

² Percentage of total participants with outcome recorded during reporting period

PARTICIPANTS SHOWING A DECREASE

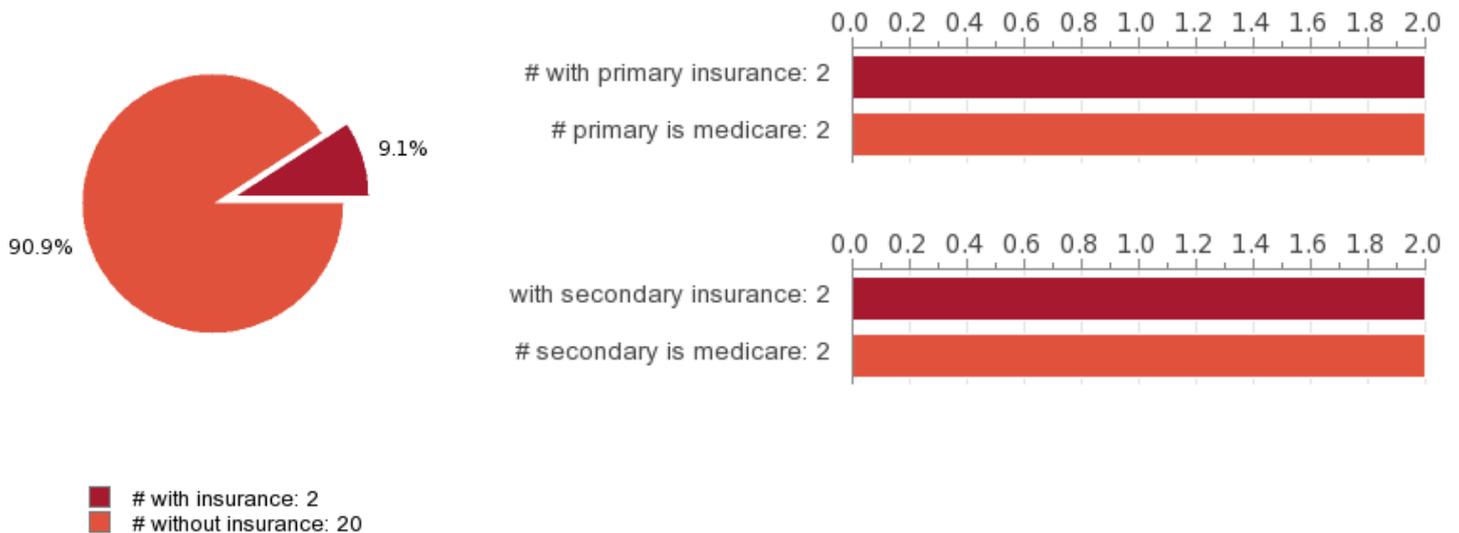

Outcome	# Tot. ¹	# Dec. ²	% Dec. ³
Decrease in A1c	12	12	100%
Decrease in Weight	2	2	100%
Decrease in BP systolic	2	1	50%
Decrease in BP diastolic	2	1	50%
Decrease in Total Cholesterol	0	0	0%
Decrease in HDL	0	0	0%
Decrease in LDL	0	0	0%
Decrease in Trigs	0	0	0%

¹ Total # of participants with multiple outcomes recorded

² Total # of participants showing a decrease within reporting period

³ The percentage of participants with a decrease within the reporting period

HEALTH INSURANCE

TOP REFERRING PROVIDERS

Provider	Site	# Refs	% of Refs ¹
Dr. Kent	fasfas	8	80%
Dr First Name Last Name		1	10%
Dr Clark Test		1	10%

¹ Percentage of total referrals within reporting period

IDS OF PARTICIPANTS WITH ENCOUNTER SUCH AS A LAB OR BEHAVIORAL GOAL UPDATE OR A FOLLOW UP BUT NO 1:1 OR GROUP ENCOUNTER

551113, 551119

NUMBER OF PARTICIPANTS

TOTAL NUMBER OF PARTICIPANTS DURING REPORTING PERIOD

Based on the criteria selected, the total number of participants that qualify for inclusion on the report.

INITIAL COMPREHENSIVE DSMES SERVICES

The number of participants that received these services.

POST INITIAL COMPREHENSIVE SERVICES

The number of participants that received these services.

ENCOUNTER SUCH AS A LAB OR BEHAVIORAL GOAL UPDATE OR A FOLLOW UP BUT NO 1:1 OR GROUP ENCOUNTER

If patient's other than those with a documented DSMES are included in this report, this is the number of participants that did not have DSMES documented.

NUMBER OF PARTICIPANTS MARKED AS EDUCATION COMPLETE

The number of participants that were marked as *Education Complete = Yes* under *DSMES & Follow-Up > Education Status*.

NO SHOWS

The total number *No Shows* documented.

DSME METHODS

The total number of DSMES sessions or Follow-Up encounters.

INSTRUCTIONAL HOURS

The total number of hours of educator time documented for a DSMES session that had at least one participant documented as attending.

AVERAGE HOURS OF DSMES

The average number of hours of educator time documented for a DSMES session that had at least one participant documented as attending.

PATIENT DEMOGRAPHICS

AGE

The number and percentage of participants within each age range.

SPECIAL NEEDS

For participants that had a Special Need documented, the number and percentage of participants with each Special Need.

RACE/ETHNICITY

The number and percentage of participants marked as that race/ethnicity.

DIABETES TYPE

The number and percentage of participants with the diabetes type within the age range.

BARRIERS TO CARE

For participants that had a Barrier to Care documented, the number and percentage of participants with each special need.

BEHAVIORAL OUTCOMES

OUTCOME SELECTED

The number of participants that have the Behavioral Outcome documented and the average achievement.

% CHANGE WITHIN REPORTING PERIOD

The number of participants that have multiple updates to a Behavioral Outcome with at least one update falling within the reporting period and the average % change amount.

PROGRAM OUTCOMES

% CHANGE WITHIN REPORTING PERIOD

Outcome with average result during reporting period, number of participants and percentage of participants with program outcome documented during reporting period.

OUTCOMES DOCUMENTED DURING REPORTING PERIOD

Outcome with average result during reporting period, number of participants and percentage of participants with program outcome documented during reporting period.

AVERAGE

Average value of the outcome documented during the reporting period

DOCUMENTED %

The number of participants that had outcome documented during reporting period and the percentage of total participants that had the outcome documented during the reporting period.

OUTCOME CHANGE

Number of participants with measurable program outcome change, average pre & post values, and numeric & percent change in value.

CHANGE

The number of participants that had a measurable outcome change

AVG PRE

The average initial value for the outcome

AVG POST

The average current value for the outcome

CHANGE AMOUNT

The average numeric change of the outcome

PARTICIPANT MEASURES

TOT. (# TOTAL)

Total # of participants with outcome recorded during reporting period

% TOT. (% TOTAL)

Percentage of total participants with outcome recorded during reporting period

PARTICIPANTS SHOWING A DECREASE

TOT. (# TOTAL)

Total # of participants with multiple outcomes recorded

DEC. (# SHOWING DECREASE)

Total # of participants showing a decrease within reporting period

% DEC. (% SHOWING DECREASE)

The percentage of participants with a decrease within the reporting period
