

Diabetes Prevention Program (DPP) Charting Platform

Education Recognition Program

HIPAA and HI TECH Platform

The American Diabetes Association (ADA) Diabetes Prevention Program (DPP) charting platform is a DPP session and outcomes tracking web-based electronic charting system that follows HIPAA and HI TECH guidelines.

CDC revised 2018 DPP Standards and Medicare Reimbursement Guidelines

ADA is adapting the DPP charting platform to ensure it aligns with the revised 2018 CDC DPP Standards and the Medicare DPP reimbursement guidelines. ADA is committed to ensuring the platform continues to be easy to navigate, input and assess session data, and generate the CDC required CSV reports. There will be no disruption to the platform access during the revision process. Some of the platform revisions and enhancements are listed below.

- Revision will allow DPP program documentation that aligns with the 2018 CDC DPRP Standards and Operating Procedures and the Medicare DPP expanded model reimbursement requirements.
- Revision will continue to have a dashboard look, feel, and ease of navigation experience.
- The platform will be enhanced with pop up messages that will alert users when a participant has reached the maximum number of virtual make up sessions reimbursed by CMS during each of the 3 session categories (Core Sessions, Core Maintenance Sessions, Ongoing Maintenance Sessions).
- The platform will be enhanced with prompts to indicate when a DPP participant has achieved a CMS reimbursement metric and the LSC will then be able to change or hide a prompt once a CMS claim has been submitted.
- Platform users will be able to chart additional biometrics other than those required by CDC and CMS. This will allow users to further highlight their DPP program outcomes to promote increased referrals, utilizations and sustainability.

Available for All to Use

The DPP platform is available for all to use for a minimal fee. Users do NOT have to be ADA Recognized DSME program staff.

Minimal Usage Fee for ERP Programs

- Onboarding—one-time fee
 - \$125 per DPP
- ERP annual fee
 - \$125 for first program site
- Additional Sites
 - \$50 each additional program site within the same state

Minimal Usage Fee for Non-ERP Programs

- Onboarding—one-time fee
 - \$225 per DPP
- ERP annual fee
 - \$225 for first program site
- Additional Sites
 - \$100 each additional program site within the same state

Getting Started

The DPP program coordinator will need to contact ERPat [1-888-232-0822](tel:1-888-232-0822) ext. 3 to register for the DPP Platform.
