

**American Diabetes Association Pathway Program  
Patent Disclosure Form**

All inventions made with the support, in whole or in part, of American Diabetes Association research grant funds must be reported in a timely fashion to the Association.

When initially contacting the Association with notice of your invention or discovery, the Association asks that you please include the documents listed below in order to ensure smooth tracking of your patent. The Association understands the confidential nature of your work and will keep all submitted documentation confidential.

Please fill out the information requested below.
