

Happy Holidays

Warmest thoughts and best wishes for a wonderful holiday and a very happy new year! Please enjoy this issue and discover the exclusive gifts that ADA has to offer you. And to begin the gift opening, let's open with the [2017 American Diabetes Association Standards of Medical Care in Diabetes](#). ENJOY!

Diabetes Education

We are happy to announce that ERP will be hosting the ERP DSMES Recognition Symposium in Washington, DC on Feb 16, 2017. This symposium will provide attendees with 7.25 CMEs and cover the following **learning objectives**:

- Describe the National Standards for DSMES and the requirements to develop a program, annual requirements and maintain audit ready status
- Identify the steps in developing a multiple site DSME program
- Differentiate the role of the professional and para-professional in a DSME program
- List the preparation steps for a successful on-site audit
- Identify best practices, templates, and resources available for the development or improvement of a DSMES program design
- Demonstrate an understanding of DSMES and MNT reimbursement by Medicare

When: Thursday, February 16, 2016 8:30 a.m. - 5:00 p.m. EST

Where: Grand Hyatt Washington DC 1000 H Street NW Washington, DC 20001

Fee: \$150.00 Registration Fee for ERP Symposium

Recognition Tips

Staff Types:

Here is a quick guide to decipher the different types of [staff types](#), by when they should get their CEUs and if they need to be added to any of our applications.

IMPORTANCE OF A YEARLY EYE EXAM.

Diabetes is the leading cause of blindness in American adults. Those that have been diagnosed with diabetes or are at risk for developing diabetes can suffer a loss of vision due to changes within the eye, specifically the retina. Having an annual eye exam is an essential part of ensuring clear and healthy vision throughout your lifetime.

Chronicle Diabetes–DPP Platform

The American Diabetes Association (ADA) Education Recognition Program (ERP) is scheduled to launch the Chronicle Diabetes–DPP (CD-DPP) expansion the first quarter of 2017. Chronicle Diabetes is an education and outcomes tracking web-based HIPAA and HI Tech compliant electronic charting system that is being expanded to capture DPP data and sessions. The DPP expansion will generate not only the CDC required annual DPP report but will also generate progress reports, allowing a DPP program to track their progress toward the CDC required metrics. The CD-DPP expansion platform will be available to ERP programs and to DPP providers that are not ERPs (See fee schedule below). ERP programs do not have to be using Chronicle to use the Chronicle DPP expansion platform. Two conference calls will be held in January to introduce this platform. To register for a call please visit the [QA Call Schedule and Registration](#).

CD–DPP Requirements for Use:

- Internet connectivity
- Latest version of Internet Explorer, Firefox, Mozilla, Chrome, or Safari
- Screen resolution of at least 1024x768
- Cookies must be enabled for this site

CD&–DPP Platform Usage Fee:

ERP Recognized DSME Program Pricing

Onboarding Fee One Time Fee	\$125.00 – per program
ERP Annual Fee	\$125.00 – for first site
Additional Sites	\$50.00 – each additional site

Non ERP DSME Program Pricing

Onboarding Fee One Time Fee	\$225.00 – per program
ERP Annual Fee	\$225.00 – for first site
Additional Sites	\$100.00 – each additional site

Questions or to register to use the CD-DPP platform call 1 (888) 232-0822 ext: 3 or email erp@diabetes.org.

Program Coordinator guide:

This new tool has instructions on how to use it and will help you keep audit ready at all times!

Newly Diagnosed Kit for Families of Children with Type 1 Diabetes:

As you know, adjusting to life with type 1 diabetes is often overwhelming for newly diagnosed children and their families. The American Diabetes Association's Courage-Wisdom-Hope Kit provides a supportive, educational experience for children, parents and siblings that shows them they "are not alone" in dealing with this chronic disease.

This free kit cannot replace the need to see their health care professional team, but it may help families fill in some blanks. Advocacy and educational contents include:

- Parent Guide
- Kid's Interactive Guide
- Sibling Guide
- Drawstring "go" bag—sized for a meter, strips, glucose tablets, snack, and other necessities
- Write-on emergency contacts magnet and pen

Your patients can order this free resource by calling us at 1-800-DIABETES (800-342-2383), Monday through Friday, 8:30 a.m. to 8:00 p.m. Eastern or visit <http://diabetes.org/newlyT1D> (available in January 2017).

Books

Diabetes A to Z, 7th Edition (Spanish),
American Diabetes Association

Diabetes A to Z, 7th Edition, contains the most up-to-date recommendations by the American Diabetes Association, presented in a simple, direct, and easy-to-understand format. This new edition contains a variety of important updates, including information on new medications and insulins, new nutrition recommendations to match the ADA's new dietary guidelines, an all-new insurance section discussing new coverage options and details brought about by the Affordable Care Act, and much more.

Get answers to all your diabetes questions quickly and get back to living your life!

The Perfect Diabetes Comfort Food Collection, Robyn Webb, MS

Start with nine family favorites, and create hundreds of new takes on the classics.

Most home cooks have four or five time-honored, go-to dishes they know and love in their cooking repertoire. Robyn Webb, author of the best-selling *Diabetes Comfort Food Cookbook*, shows you how to master just a few techniques to transform those dishes into almost limitless meals, including: Baked Ziti, Classic Beef Stew, Shrimp Stir Fry, Blackened Fish Tacos, Skillet Lasagna, Classic Chicken Salad, Italian Meatball Burgers, Classic Meatloaf, and many more.

Item # 6309-01
Original Price: \$19.95
ERP Member Price: \$11.97

ADA Diabetes Challenge

Diabetes management isn't always easy, and that's why Merck and the American Diabetes Association are encouraging people to share their stories about the challenges and successes they've faced managing type 2 diabetes or supporting a loved one with the disease as part of [America's Diabetes Challenge](#). Whether you've reached your A1C (average blood glucose level over the past 2 to 3

months) or you're having a hard time sticking to your management plan, we want to hear from you. Additionally, America's Diabetes Challenge urges people with type 2 diabetes to work with their doctor to set and reach their A1C goal. People are also encouraged to learn if they are at risk of low blood glucose and how to help reduce that risk. Your voice matters—[share your story today!](#)
