

Diabetes Technology: Individualization + Education

Diabetes technology should be individualized based on a person's:

- Needs
- Desires
- Skill level
- Access to technology

PROVIDE PEOPLE WITH DIABETES OR CAREGIVERS ONGOING TRAINING AND REGULAR EVALUATION OF TECHNIQUES.

ONGOING TRAINING

REGULAR EVALUATION OF TECHNIQUE

ADJUST THERAPY

Support students at school in the use of diabetes technology prescribed by their diabetes care team.

Initiate diabetes technology early when appropriate (based on person's/caregiver's needs and preferences).

DIABETES TECHNOLOGY MAY INCLUDE

Continuous subcutaneous insulin infusion (CSII)

Continuous glucose monitoring (CGM)

Connected insulin pens

Automated insulin delivery systems (AIDS)

Smart and connected meters, digital apps
