

85TH SCIENTIFIC
SESSIONS

Program Information

JUNE 20-23, 2025 | CHICAGO, IL

Welcome to the American Diabetes Association's 85th Scientific Sessions in Chicago.

As the world's largest meeting on diabetes, the Scientific Sessions is both a leading educational gathering and a unique opportunity to network with colleagues from over 115 countries. We couldn't be more excited to reconnect and accelerate progress towards preventing and curing diabetes and improving the lives of all people affected by diabetes.

Table of Contents

Welcome!

We're excited to highlight several key topics during this year's conference, including discussions focused on enhancing the quality and reach of diabetes care through improved access and cutting-edge technologies.

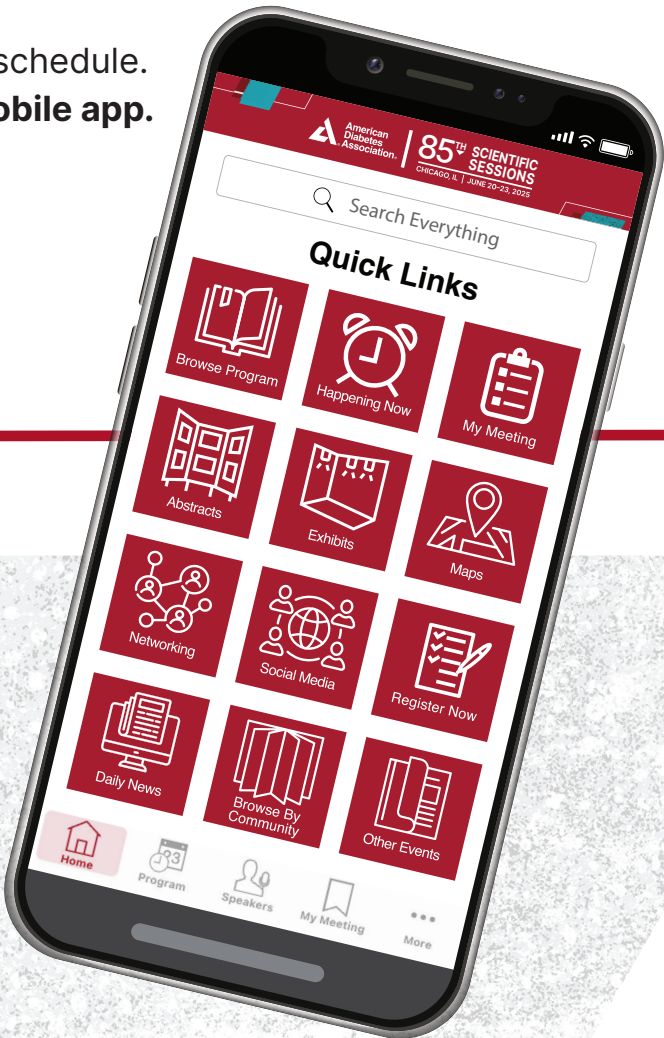

Browse our day-at-a-glance schedule to discover all the scientific content you won't want to miss. To help you easily navigate sessions related to health access and technology innovation, look for the  and  icons next to the session titles.

We look forward to exploring these critical topics and engaging in meaningful discussions.
