Outline of items no longer required with 2022 standards and guidance for which 2022 standard the 2017 requirements, that are still applicable are in.

- **2017 Std. 1:**
  - No longer required: Letter of Support, Organizational Chart, Service Goals and Mission Statement

- **2017 Std 2:**
  - No longer required: Advisory Group activity or minutes
  - Advisory Group is now called “stakeholders” and is the 2022 Standard 1
  - 2022 Standard 2 only requires a list of stakeholders and how they may provide input or advocacy but documentation of them providing this is not required.
  - The list of stakeholders and how they may provide input/advocacy has to be reviewed annually.

- **2017 Std 3:**
  - Same requirements for 2022 for population served and service assessment but only target population now, not population planned to serve.
  - This is the 2022 standard 2

- **2017 Std. 4 and Std 5:**
  - Combined into one standard, 2022 standard 3
  - No changes to requirements.
  - Paraprofessionals now called Diabetes Community Care Coordinators (DCCC)

- **2017 Std. 6:**
  - The curriculum is in the 2022 standard 4
  - The out-of-scope policy moved to this standard
  - No longer requires problem solving to be a separate topic area in the curriculum
  - See 2022 curriculum topic areas.

- **2017 Std 7, 8, and 9:**
  - 2017 standard 8, DSMS, and all it’s requirements are gone with 2022 standards.
  - 2017 standard 7 and 9 combined into one standard new 2022 standard 5.

- **2017 Standard 10:**
  - 2022 Standard 6
  - Only change is that original applications no longer requires CQI outcomes at the time of the application.
