FRIDAY, JUNE 25, 2021

6:30 p.m.-8:30 p.m.
Going Above the Lows: A Fresh Look at Management of Severe Hypoglycemia in a Modern Diabetes World
Sponsored by Medscape
Supported by an independent educational grant from Zealand Pharma A/S
Presentation with Live Q&A: 6:30 p.m.-8:00 p.m. ET, Friday, June 25
On-demand: June 30 – September 29

This interactive virtual symposium will showcase expert clinicians in the field of diabetes to help clinicians identify gaps in current treatment of severe hypoglycemia as well as improve knowledge and competence related to new strategies for improving severe hypoglycemia treatment in their patients, thus improving patient care and outcomes.

6:30 p.m.-8:30 p.m.
Early Screening for Type 1 Diabetes: Reducing the Risk of Early and Later Complications
Sponsored by Postgraduate Institute for Medicine
Supported by an educational grant from Provention Bio
Presentation with Live Q&A: 6:30 p.m.-8:30 p.m. ET, Friday, June 25
On-demand: June 24 – September 29

More information coming soon.

6:30 p.m.-8:30 p.m.
Translating Trial-Based Evidence and Real World Data for Sensor-Based Glucose Monitoring to Optimize Health Metrics in Persons Across the Diabetes Spectrum
Sponsored by CMEducation Resources
Supported by an educational grant from Abbott Diabetes Care
Presentation with Live Q&A: 6:30 p.m.-8:30 p.m. ET, Friday, June 25
On-demand: June 24 – September 29

More information coming soon.

SATURDAY, JUNE 26, 2021

12:30 p.m.-1:45 p.m.
Breaking the Glass Ceiling with New Clinical Approaches in rtCGM
Sponsored by Medscape
Supported by an independent educational grant from Dexcom
Presentation with Live Q&A: 12:30 p.m.-1:45 p.m. ET, Saturday, June 26
On-demand: July 1 – September 29

As the use of real-time continuous glucose monitoring (rtCGM) becomes widespread, clinicians need to stay current on these advances. This symposium will walk you through, not only the latest clinical trial data supporting rtCGM, but also key tips and
strategies for beginners to professionals. Our experts will share their practical knowledge for incorporating rtCGM effectively into practices.

**6:15 p.m.-7:45 p.m.**  
**Chronic Kidney Disease in Diabetes: Contemporary Approaches to Renoprotection**  
*Sponsored by Clinical Care Options, LLC*  
*Supported by an educational grant from Bayer HealthCare Pharmaceuticals, Inc.*  
Presentation with Live Q&A: 6:15 p.m.-7:45 p.m. ET, Saturday, June 26  
On-demand: June 24 – September 29

The panel will share their insights on the early diagnosis and treatment of CKD to improve renal and CV outcomes in patients with type 2 diabetes.  
**Contact:** Amy Goldman / e-mail: agoldman@clinicaloptions.com

**6:15 p.m.-8:15 p.m.**  
**From Glycemic Control to Cardiorenal Protection: Improving Outcomes with SGLT2 Inhibitors**  
*Sponsored by Voxmedia*  
*Supported by an educational grant from Boehringer Ingelheim Pharmaceuticals, Inc. and Lilly USA, LLC*  
Presentation with Live Q&A: 6:15 p.m.-8:15 p.m. ET, Saturday, June 26  
On-demand: June 24 – September 29

In this program, the following overarching needs of diabetologists/endocrinologists will be addressed: 1) to interpret evidence from cardiovascular (CV), heart failure (HF), and renal outcome trials with SGLT2 inhibitors, 2) to improve awareness of changes in clinical practice guidelines and new scientific statements from diabetes, CV, and renal societies based on this increasing evidence, and 3) to apply patient-centered and interdisciplinary, collaborative care in the treatment of patients with comorbidities with SGLT2 inhibitors. SGLT2 inhibitors not only enable patients with type 2 diabetes (T2D) to achieve glycemic control; they provide cardiorenal protection via mechanisms, still undetermined, independent of glucose-lowering. In this educational initiative, experts Dr. Lawrence Leiter (Chair), Dr. Jennifer Green, Dr. Javed Butler, and Dr. David Cherney from multiple specialties (endocrinology, cardiology, and nephrology) will through lecture, case presentations, and panel discussion, provide perspectives on translating evidence into clinical practice and indicate considerations for using SGLT2 inhibitors safely and effectively in patients with, and at high risk for, CV disease, HF, and chronic kidney disease (CKD).

**6:15 p.m.-8:15 p.m.**  
**Preventing “Inevitable” Blindness in the Diabetic Patient: Optimizing Referral Strategies, Retinal Screening and Imaging, and Vision-Saving Pharmacological Therapy Across the Full Continuum and Front Lines of Diabetes Care**  
*Sponsored by CMEducation Resources*  
*Supported by an educational grant from Regeneron*  
Presentation with Live Q&A: 6:15 p.m.-8:15 p.m. ET, Saturday, June 26  
On-demand: June 24 – September 29

More information coming soon.

SUNDAY, JUNE 27, 2021

6:45 p.m.-8:45 p.m.
The Contemporary Use of GLP-1 RAs to Individualize Therapy in T2DM: Candid Conversations on Glycemic and Non-Glycemic Effects
Sponsored by PeerView
Supported by an educational grant from Novo Nordisk, Inc.
Presentation with Live Q&A: 6:45 p.m.-8:45 p.m. ET, Sunday, June 27
On-demand: June 24 – September 29

More information coming soon.

6:45 p.m.-8:45 p.m.
Nutritional Approaches for the Prevention and Remission of Type 2 Diabetes and Weight Management
Sponsored by Nestlé Nutrition Institute
Supported by an educational grant from Nestlé Health Science
Presentation with Live Q&A: 6:45 p.m.-8:45 p.m. ET, Sunday, June 27
On-demand: June 24 – September 29

This symposium will address the importance and role of nutrition intervention on the pathophysiology and development of obesity, type 2 diabetes, and co-morbidities including MAFLD. Experts will discuss current and emerging novel non-pharmacological approaches to weight management, the prevention and remission of type 2 diabetes and CV risk reduction.

6:45 p.m.-8:45 p.m.
Chronic Kidney Disease and T2DM: Evolving Strategies in Diagnosis and Treatment
Sponsored by PER
Supported by an educational grant from Bayer
Presentation with Live Q&A: 6:45 p.m.-8:45 p.m. ET, Sunday, June 27
On-demand: June 24 – September 29

More information coming soon.
Contact: Zack Rosenthal/e-mail: zrosenthal@gotoper.com

MONDAY, JUNE 28, 2021

6:45 p.m.-8:15 p.m.
Ushering in a New Era of Sustainable Weight Loss with Incretin-Based Therapies
Provided by Clinical Care Options, LLC
Supported by an educational grant from Novo Nordisk, Inc.
Presentation with Live Q&A: 6:45 p.m.-8:15 p.m. ET, Monday, June 27
On-demand: June 24 – September 29

Faculty will discuss the metabolic adaptations in obesity, the value of sustained weight loss, and the latest evidence for incretin-based therapies for long-term weight management.
