Welcome

Wishing you a bright and beautiful Autumn from the ERP team! This issue will include information on our next ERP Symposia and many other resources for you. Feel free to always email us (erp@diabetes.org) or call (1-888-232-0822) with any questions about recognition or platform. Regular updates can be found at diabetes.org/erp.

Diabetes Education

Conversation Maps Update:
Curriculum addendum has been uploaded to the Healthy Interactions website within the facilitator portal. Any trained educator can access this by logging into their account at: http://facilitators.healthyinteractions.com/account and going to "Curriculum Resources."

Recognition Tips

Upcoming ERP Symposiums:

ERP DSME/S Recognition Symposium - Lowell, MA
Location: Lowell, Massachusetts
Date: Saturday, October 27, 2018
Learn More

ERP DSME/S Recognition Symposium - Dallas, TX
Location: Dallas, Texas
Date: Monday, November 5, 2018
Learn More

Chronicle Corner

There have been many updates to Chronicle Diabetes (CD) over the last few months to improve functionality and increase security. Because of these updates, CD is no longer compatible with older browsers. CD now works best with:

- Chrome version 66
• Chrome version 67
• Microsoft Edge (upgrade of Internet Explorer (IE) 11, though IE 11 still works for now)

If you experience issues with the systems, we encourage you to update your browser to the latest version. To find out what browser you're using, click the link below:

https://www.whatismybrowser.com/

If you check that site and find that you're using the newest version of your browser, but you're still experiencing any issues with the system, please let us know so we can investigate. It's helpful to include the results of the browser check site above. To provide that, follow these instructions:

Go to this address:  
https://www.whatismybrowser.com

In the grey horizontal bar near the top, below where it says "SHARE YOUR SYSTEM INFO WITH TECH SUPPORT" there is a blue URL box.

Click on the URL in the box. This will highlight the URL. Copy that URL. Then paste that URL into an email and send it back to us.

**Diabetes Prevention Program DPP Express**

The ERP launched DPP Express, a Diabetes Prevention Program (DPP) charting platform, in 2017. The platform generates reports that align with the CDC DPP Recognition requirements. The charting platform makes it easy to navigate, input data, and generate the CDC DPP Recognition CSV reports.

The ADA is committed to ensuring that DPP Express continues to align with the revised 2018 CDC DPRP Standards and the Medicare (CMS) MDPP reimbursement guidelines. The platform is available for a minimal fee to ADA Recognized DSMES services, as well as DPP providers that are not ADA Recognized DSMES services.

To learn more about DPP Express and its capabilities, please submit a DPP Express Interest Form so an ERP staff member can contact you.

The ERP team also hosts a free monthly DPP Express webinar.

**Other Resources**

**66TH ADVANCED POSTGRADUATE COURSE**
Don't miss important advances in diabetes management and treatment!

The Postgraduate Course will be held February 22-24, 2019, in New York City and will cover the latest clinical research translated into evidence-based treatment strategies to improve outcomes in your patients with diabetes. Discuss clinical cases with our world-renowned faculty and take home practical patient management tools that you can begin using immediately in your practice.
The course will offer 14.0 continuing education hours. Learn more at [http://professional.diabetes.org/pg](http://professional.diabetes.org/pg).

**Recipes from Your Trusted Source**

Diabetes Food Hub is the new cooking and recipe platform created by the ADA for people living with diabetes, their families, and caregivers. Find tools for helping your patients manage their daily meal challenges, including a personalized, interactive meal planner that calculates nutrition facts and generates a customizable grocery list, and hundreds of ADA-approved recipes.

Explore more at [diabetesfoodhub.org](http://diabetesfoodhub.org).

**ADA Opens Call to Serve on National Committees**

The American Diabetes Association, the nation's leading voluntary health organization in the fight against diabetes and its complications, has opened the call for nominations for its national committees.

The national committees aid in the accomplishment of the multifaceted work of the ADA through the dedication and leadership of its diverse core of volunteers. Committee members play an integral role in advancing our mission.

Nominations are being accepted for the following committees. Please share this information with individuals not affiliated with the ADA with expertise in these areas. For the criteria or an application form, visit [diabetes.org/committees](http://diabetes.org/committees). All applications are due by Monday, October 1, 2018.

For more information, please contact Monique Lindsy at 703-299-2003 or mlindsy@diabetes.org.

**Books**

**Diabetes: How to Help**

Gary Scheiner, MS, CDE and Diane Herbert, MSS, LSW, CFM, CDE

Living with diabetes is complicated and challenging. In addition to a multitude of daily tasks and decisions, managing diabetes requires appropriate support from those surrounding the person with diabetes: partners, family members, friends, co-workers, and caregivers. Most aspects of diabetes care and treatment focus on the patient. *Diabetes: How to Help* is intended to fill the void that currently exists by addressing knowledge deficits and the emotional needs of the caregiver community.

Item # 5047-01
Nearly 10 million people in the United States have been told by their doctor that they have prediabetes, with tens of millions more estimated to have prediabetes and not know it. In fact, the latest numbers from the CDC suggest that 1 in 3 adults currently have prediabetes. These are alarming numbers and finding out that you are the one out of three can be even more alarming. Shock, denial, and confusion are not uncommon reactions. There is a flipside to learning you have prediabetes—it's also an opportunity—an opportunity to "reset," to improve your health, and to get yourself in better shape than ever. Let Prediabetes: A Complete Guide show you how!

Item # 5052-01
Original Price $16.95
ERP Member Price: $10.17

In the fully updated 5th edition, diabetes nutrition specialist Lea Ann Holzmeister, RD, CDE, provides complete nutrition information for thousands of food and menu items! From fresh produce to fast food, prepackaged/frozen meals, and even gluten-free foods, all types of foods are included. Each entry lists the serving size and values for calories, carbohydrate, fat, sodium, and other important nutrients. This comprehensive resource has all the information you need—straight from the diabetes experts—to make eating with diabetes easier than ever!

Item # 4708-05
Original Price $16.95
ERP Member Price: $10.17
Diabetes A to Z, 7th Edition
American Diabetes Association

*Diabetes A to Z, 7th Edition* contains the most up-to-date recommendations by the American Diabetes Association, presented in a simple, direct, and easy-to-understand format. Get answers to all your diabetes questions quickly and get back to living your life. Appropriate for all people with diabetes and their caregivers and backed by the credibility of the American Diabetes Association, this latest edition of *Diabetes A to Z* is the home reference every person with diabetes should own. Also available in Spanish (Diabetes de la A a la Z, 7ma Ed.)
